

The General

DVP Roller is core part for laser printer to supply toner on the surface of OPC Drum. Recently as laser prints are achieving faster speeds, higher quality and more complex, this rollers are requested to be higher and higher quality. JAHWA's DVP roller satisfies consumer's requirements with our own distinguished QC control system, modernized measuring equipment and automatic process.

Features

- Superior stable resistance property
- Excellent reliability with OPC drum
- Quick delivery and good counteraction for quality

Developer Roller

■ Specifications

Material	Length (mm)	Diameter (mm)	Resistance (M Ω)	Hardness (JIS-A)	Thickness (μ m)
NBR	276,1	ϕ 14	1×10^7	56	<1,0
	271,3	ϕ 16	1×10^8	54	<1,0
	263,0	ϕ 20	1×10^8	54	<1,5
Silicon	284,5	ϕ 20	1×10^7	52	<1,5
Urethane	272,7	ϕ 20	1×10^8	50	<1,5
